The Card Arnold Bennett

Although Arnold Bennett has left his father's business at quite a young age, going on to become a successful writer, he certainly did an excellent job describing the story of another young man set for success: Edward Henry Mitchin, the main character in his novel, *The Card*.

Bennett's success in his ability of making the somewhat dreary and mundane lives of his characters interesting - as depicted in his famous and quite realistic novels about the Five Towns - certainly doesn't go unnoticed in *The Card*.

Denry, as Edward is called by his mother, is a young entrepreneur with somewhat of a predisposition for trouble. Although his personality is well-balanced, never really going overboard and neither showing the caliber of an actual hero, Denry is a highly likeable character as many of those described in Bennett's other works.

The story is lighthearted, and has quite a few elements of witty humor in it, telling the tale of Denry's opportunistic approach as a clerk in trying to take advantage of everything life has to offer. It also focuses on Denry's somewhat less pleasant love life, and his interaction with his remarkable mother who constantly tries to guide him on the right path.

The novel's story is set in the Staffordshire area, and has been written more than 100 years ago, still making for a light and enthusiastic read for those interested in picking up the book today. It features chapters that, although are not entirely disconnected from each other, reflect in a sense Denry's unique and polarized personality. Some of them you may like, while others might paint quite an opposite picture.

Bennett still manages to add a sense of flow to the storyline, making it entirely easy to read, and able to captivate his readership through the charming and humorous atmosphere he creates, as well as the colorful depiction of his characters.
