**International Production and the Multinational Enterprise (RLE International Business) (Routledge Library Editions: International Business) John H Dunning**

The growth and impact of the multinational enterprise (MNE) in the post war period is one of the most important phenomena of our time. This volume, originally published in 1981 provides a comprehensive and detailed review of both the theoretical and policy issues at a time when the subject had reached a watershed, after the controversies of the 1970s.

The book provides a balanced discussion of major themes such as the development of modern theories of international production; the impact of the MNE on the nation-state and the structure of the international market; the response of governments and the appropriate framework for policy measures; and the historical context and likely future of the MNE.
