Windows Server 2008 For Dummies Ed Tittel, Justin Korelc

If you're curious, but hesitant, about finding your way around Microsoft's new Windows Server 2008, "Windows Server 2008 For Dummies" is the book for you. This friendly reference shows you everything you need to know -- from installation and deployment to building and running a Windows Server 2008 network.

Server-based networking really is a big deal, and this 100% plain-English guide helps you make the most of it. You'll find out about Windows Server 2008's important functions, capabilities and requirements; develop a network implementation plan; take a step-by-step walkthrough of the installation process; and get valuable tips on how to boost your bandwidth beyond belief! Before you know it, you'll be configuring connections to the Universe, working with active directory, and treating domains and controllers like old pals. Discover how to:

- Build and connect your network
- Install and configure Windows Server 2008
- Set up and manage directory services
- Manage users and groups
- Install and manage print servers
- Secure your network
- Troubleshoot active networks
- Plan for installing Active Directory
- Proclaim and manage your own domain
- Resolve names between TCP/IP and NetBIOS
- Manage shares, permissions, and more
- Develop and implement a regular backup protocol

"Windows Server 2008 For Dummies" may be easy-going, but it's simply packed with need-to-know stuff that will send you diving into Windows Server 2008 experience just for the fun of it. So start now!

From reader reviews:

Tatum Martin:

Do you have favorite book? If you have, what is your favorite's book? Guide is very important thing for us to know everything in the world. Each book has different aim or goal; it means that e-book has different type. Some people truly feel enjoy to spend their a chance to read a book. These are reading whatever they acquire because their hobby is usually reading a book. Think about the person who don't like studying a book? Sometime, man or woman feel need book if they found difficult problem or perhaps exercise. Well, probably you will require this Windows Server 2008 For Dummies.

Robert Alleman:

Nowadays reading books become more and more than want or need but also work as a life style. This reading addiction give you lot of advantages. Advantages you got of course the knowledge the rest of the information inside the book that will improve your knowledge and information. The details you get based on what kind of guide you read, if you want get more knowledge just go with training books but if you want truly feel happy read one using theme for entertaining like comic or novel. Typically the Windows Server 2008 For Dummies is kind of e-book which is giving the reader unpredictable experience.

Audrey Mack:

Reading a book tends to be new life style in this particular era globalization. With looking at you can get a lot of information that can give you benefit in your life. Along with book everyone in this world can easily share their idea. Books can also inspire a lot of people. Plenty of author can inspire their very own reader with their story or perhaps their experience. Not only situation that share in the publications. But also they write about the knowledge about something that you need instance. How to get the good score toefl, or how to teach children, there are many kinds of book that exist now. The authors on earth always try to improve their proficiency in writing, they also doing some research before they write on their book. One of them is this Windows Server 2008 For Dummies.

David Paras:

Guide is one of source of understanding. We can add our information from it. Not only for students but native or citizen have to have book to know the revise information of year in order to year. As we know those books have many advantages. Beside most of us add our knowledge, could also bring us to around the world. With the book Windows Server 2008 For Dummies we can get more advantage. Don't that you be creative people? To be creative person must want to read a book. Just simply choose the best book that appropriate with your aim. Don't possibly be doubt to change your life at this time book Windows Server 2008 For Dummies. You can more inviting than now.
