## **You'll Never Wear Out an Indian Scout: Indians and the Wall of Death** Allan Ford, Nick Corbie

Following on from their best-selling *Riding the Wall of Death* (reprinted five times), *Wall of Death* rider and owner Alan Ford and author Nick Corbie tell the story in words and pictures of the Wall of Death and the famous Indian motorcycles used almost exclusively for the popular, but now rare, fairground attraction.

Indians were used because of their left-handed throttle control and low center of gravity, making them ideal for this risky form of entertainment. From the early days with the Tom Davis Trio to the current day, the Wall of Death has always been an attraction and the bike of choice for the riders has always been the Indian Scout – a 1920s bike which was especially suited to the Wall of Death. To quote Sammy Pierce, the world's largest Indian motorcycle dealer:

You can't wear out an Indian Scout,  
or its brother the Indian Chief.  
They're built like rocks to stand hard knocks,  
it's the Harleys that cause the grief.

The Indian Scout was never the best motorbike in the world, but it was the bike to use for the trick riding on the Wall of Death.

## REVIEWS

"The many period photos are a delight to anyone, regardless of motorcycle interest, who enjoys looking at days long ago. Wall junkies will appreciate seeing photos of many of the big names in the sport. Restorers will seek out the many close ups of specific technical features, all sorts of bikes in various states of disassembly, and many shots of restored historic bikes along with a handful of cutaway drawings from old factory brochures."
