Competition, Choice, and Incentives in Government Programs (IBM Center for the Business of Government)

Competition, Choice, and Incentives in Government Programs (IBM Center for the Business of Government)

Since the 1980s, the language used around market-based government has muddled its meaning and polarized its proponents and critics, making the topic politicized and controversial. *Competition, Choice, and Incentives in Government Programs* hopes to reframe competing views of market-based government so it is seen not as an ideology but rather as a fact-based set of approaches for managing government services and programs more efficiently and effectively.
