**Automated Evaluation of Text and Discourse with Coh-Metrix** Danielle S. McNamara, Arthur C. Graesser, Philip M. McCarthy, Zhiqiang Cai

Coh-Metrix is among the broadest and most sophisticated automated textual assessment tools available today. *Automated Evaluation of Text and Discourse with Coh-Metrix* describes this computational tool, as well as the wide range of language and discourse measures it provides. Section I of the book focuses on the theoretical perspectives that led to the development of Coh-Metrix, its measures, and empirical work that has been conducted using this approach. Section II shifts to the practical arena, describing how to use Coh-Metrix and how to analyze, interpret, and describe results. Coh-Metrix opens the door to a new paradigm of research that coordinates studies of language, corpus analysis, computational linguistics, education, and cognitive science. This tool empowers anyone with an interest in text to pursue a wide array of previously unanswerable research questions.
