Galactic Patrol Officer Drako has a job to do. He's been ordered to inspect all of the evacuation ships carrying Terrans out of the Triad galaxies. A report has been filed by a human captain that claims humans are being abused and sold into slavery, and Drako finds himself heading up the investigation. He expects resistance from the ex-pirate captains, and he knows that there are some issues that may arise out of throwing aliens and Terrans together. What he's not prepared for is a curvy, pretty blonde full of secrets, who insists on dating every alien on board except for him.

One minute Carolina Andiva is running a successful liaison service catering to politicians and celebrities on Terra, the next her government issues a mandatory evacuation. She has to close down her self-owned business and use all her finances to secure herself a spot on one of the alien-manned ships. She assumes all the hard work she's put into her business has gone down the drain, until she gets on board the Brave Star and discovers that there are other opportunities open to her. Things are looking up for Carolina, until she meets a client who redefines 'hot' in her book and has a hard time keeping her relationship with him professional.

Conflicts arise when they're both forced to decide if they're willing to risk not only their jobs, but their hearts, for a chance at romance. The adventure is just beginning for these two as they patrol the stars.
