PAUL HALMOS Celebrating 50 Years of Mathematics

PAUL HALMOS Celebrating 50 Years of Mathematics

Paul Halmos will celebrate his 75th birthday on the 3rd of March 1991. This volume, from colleagues, is an expression of affection for the man and respect for his contributions as scholar, writer, and teacher. It contains articles about Paul, about the times in which he worked and the places he has been, and about mathematics. Paul has furthered his profession in many ways and this collection reflects that diversity. Articles about Paul are not biographical, but rather tell about his ideas, his philosophy, and his style. Articles about the times and places in which Paul has worked describe people, events, and ways in which Paul has influenced students and colleagues over the past 50 years. Articles about mathematics are about all kinds of mathematics, including operator theory and Paul's research in the subject. This volume represents a slice of mathematical life and it shows how many parts of mathematics Paul has touched. It is fitting that this volume has been produced with the support and cooperation of Springer-Verlag. For over 35 years, Paul has contributed to mathematics publishing as founder and editor of many outstanding series.

From reader reviews:

Shari Yung:

Nowadays reading books become more and more than want or need but also work as a life style. This reading practice give you lot of advantages. Associate programs you got of course the knowledge the actual information inside the book that will improve your knowledge and information. The details you get based on what kind of book you read, if you want have more knowledge just go with education and learning books but if you want really feel happy read one using theme for entertaining including comic or novel. The PAUL HALMOS Celebrating 50 Years of Mathematics is kind of publication which is giving the reader unstable experience.

Benedict Wilkerson:

Information is provisions for people to get better life, information today can get by anyone with everywhere. The information can be a know-how or any news even a concern. What people must be consider while those information which is in the former life are difficult to be find than now could be taking seriously which one works to believe or which one the particular resource are convinced. If you receive the unstable resource then you understand it as your main information you will have huge disadvantage for you. All of those possibilities will not happen throughout you if you take PAUL HALMOS Celebrating 50 Years of Mathematics as the daily resource information.

Dora Champagne:

People live in this new moment of lifestyle always try to and must have the spare time or they will get wide range of stress from both way of life and work. So , when we ask do people have spare time, we will say absolutely yes. People is human not a robot. Then we inquire again, what kind of activity have you got when the spare time coming to you actually of course your answer may unlimited right. Then do you ever try this one, reading publications. It can be your alternative within spending your spare time, often the book you have read will be PAUL HALMOS Celebrating 50 Years of Mathematics.

Philip Mejia:

Is it you actually who having spare time in that case spend it whole day through watching television programs or just telling lies on the bed? Do you need something totally new? This PAUL HALMOS Celebrating 50 Years of Mathematics can be the answer, oh how comes? The new book you know. You are so out of date, spending your extra time by reading in this fresh era is common not a geek activity. So what these publications have than the others?
