## **Biochemistry of the Elemental Halogens and Inorganic Halides (Biochemistry of the Elements)**

Kenneth L. Kirk

The elements in group 17 (VIIA) of the periodic table of elements-fluorine (F), chlorine (Cl), bromine (Br), and iodine (I)-were designated by Berzelius as "halogens" (Greek hals, sea salt; gennao, I beget) because of their propensity to form salts. In this first of the two volumes of Biochemistry of the Halogens, the biochemistry of the elemental halogens and inorganic halides is reviewed. Discovery, properties, and biochemistry of the elemental halogens are reviewed first (Chapter 1). This is followed by a review of the developments in the various areas of inorganic halide biochemistry (Chapters 2 through 5). The biochemistry of thyroid hormones is considered in Chapter 6, while biohalogenation, an important link between inorganic and organic halogen biochemistry, is reviewed in Chapter 7. Chapter 8 covers the biochemistry of products produced by human-inspired halogenation, in particular, poly halogenated compounds that present environmental problems. In Chapter 9, the process is reversed and biodehalogenation is reviewed. In each subject, the attempt has been made to find an appropriate balance between depth and breadth of treatment, since a thorough, in depth review of this field would not be possible in a single volume. To provide readers not familiar with subjects with the necessary background to place subsequent discussions in perspective, brief historical developments of many of the topics are given.

### **From reader reviews:**

#### **Whitney Mallard:**

The book Biochemistry of the Elemental Halogens and Inorganic Halides (Biochemistry of the Elements) can give more knowledge and also the precise product information about everything you want. Exactly why must we leave the best thing like a book Biochemistry of the Elemental Halogens and Inorganic Halides (Biochemistry of the Elements)? A few of you have a different opinion about reserve. But one aim that will book can give many information for us. It is absolutely appropriate. Right now, try to closer together with your book. Knowledge or information that you take for that, it is possible to give for each other; you could share all of these. Book Biochemistry of the Elemental Halogens and Inorganic Halides (Biochemistry of the Elements) has simple shape however, you know: it has great and massive function for you. You can look the enormous world by wide open and read a book. So it is very wonderful.

#### **Avril Morris:**

This Biochemistry of the Elemental Halogens and Inorganic Halides (Biochemistry of the Elements) is fresh way for you who has attention to look for some information because it relief your hunger associated with. Getting deeper you into it getting knowledge more you know or you who still having tiny amount of digest in reading this Biochemistry of the Elemental Halogens and Inorganic Halides (Biochemistry of the Elements) can be the light food in your case because the information inside this particular book is easy to get by simply anyone. These books develop itself in the form that is reachable by anyone, yes I mean in the e-book web form. People who think that in publication form make them feel tired even dizzy this book is the answer. So there is not any in reading a reserve especially this one. You can find what you are looking for. #### **Melissa Becker:**

Don't be worry should you be afraid that this book may filled the space in your house, you could have it in e-book approach, more simple and reachable. This kind of Biochemistry of the Elemental Halogens and Inorganic Halides (Biochemistry of the Elements) can give you a lot of pals because by you taking a look at this one book you have thing that they don't and make an individual more like an interesting person. This kind of book can be one of one step for you to get success. This publication offer you information that probably your friend doesn't understand, by knowing more than various other make you to be great individuals. So , why hesitate? We need to have Biochemistry of the Elemental Halogens and Inorganic Halides (Biochemistry of the Elements).

#### **Patrick Myers:**

What is your hobby? Have you heard which question when you got students? We believe that that question was given by teacher for their students. Many kinds of hobby, Everyone has different hobby. And you know that little person such as reading or as reading become their hobby. You should know that reading is very
