**Jane's memories will save the missing, but forgetting them could save her sister.**

Jane lives with her quirky family on a Virginia Plantation thinking life is about maintaining Ausmor Plantation's website and flirting with the rich, handsome Byron and the rugged handyman, Alexander. Fifty miles away, Jane's old friend, Meg, is a perpetually late nursing student who dashes into an alley to avoid her landlady - *among the many people she's irritated* - but she meets a serial killer and wakes up chained in a cellar.

When Jane has flashbacks of being trapped with Meg in the cellar, she realizes locked within her amnesia is the hope of saving the missing women who have disappeared in the last few months. When Jane discovers her sister is one of the missing, the killer taunts Jane with a simple choice: **save her sister or Meg**.
