Gadamer and the Legacy of German Idealism (Modern European Philosophy)

Kristin Gjesdal

Gadamer and the Legacy of German Idealism (Modern European Philosophy) Kristin Gjesdal

The philosophy of Hans-Georg Gadamer interests a wide audience that spans the traditional distinction between European (continental) and Anglo-American (analytic) philosophy. Yet one of the most important and complex aspects of his work - his engagement with German Idealism - has received comparatively little attention. In this book, Kristin Gjesdal uses a close analysis and critical investigation of Gadamer's *Truth and Method* (1960) to show that his engagement with Kant, Hegel, and Schleiermacher is integral to his conception of hermeneutics. She argues that a failure to engage with this aspect of Gadamer's philosophy leads to a misunderstanding of the most pressing problem of post-Heideggerian hermeneutics: the tension between the commitment to the self-criticism of reason, on the one hand, and the turn towards the meaning-constituting authority of tradition, on the other. Her study provides an illuminating assessment of both the merits and the limitations of Gadamer's thought.
