Natural Elites, Intellectuals, and the State

Hans-Hermann Hoppe

Natural Elites, Intellectuals, and the State Hans-Hermann Hoppe

This monograph engages the long-running controversy about the origin of the state. Hoppe adopts the theory that extends from a Rothbardian view of the role of elites in society and their monopolistic tendencies. He further maps out a strategy for how the non-state-connected natural elites can turn back the tide of state-connected elites. It is a seminal contribution to the literature with a hopeful roadmap for the future.
