Thirty years after the events in the Solar system, the Empire has entered a time of expansion and advancement.

But, that safety and peace are threatened when a force is detected in one of the systems close to the Empire's border.

The Empire needs to prepare for war, and perhaps even strike first in order to protect its people.

Other races and other events interfere with the plans, and the Empire is forced to make decisions that could affect millions.

New technologies are put to the test. New discoveries and realizations come to the surface as the Empire goes to war.
