**ALERT:** Before you purchase, check with your instructor or review your course syllabus to ensure that you **select the correct ISBN**. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, **you may need a CourseID**, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

### Packages

Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase.

### Used or rental books

If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code.

### Access codes

Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase.

Considered one of the best hands-on explorations of introductory meteorology concepts, this lab manual's 17 exercises encourage students to review important ideas and concepts through problem solving, simulations, and guided thinking. The graphics program and online interactive simulations and tutorials help students visualize and master key concepts. It is designed to complement any introductory meteorology or weather and climate text. The **Eighth Edition** retains Carbone's acclaimed combination of print labs with robust interactive digital modules, which promote critical thinking through data analysis, problem solving, and experimentation. It is updated throughout with the latest data and examples from the science, and includes many new exercises and new media in a new supporting website, including an entirely new lab on Forecasting. It is at a reduced price when packaged with selected Pearson Science texts.
