## Seeking and Finding God Dave Hunt

It is astonishing how many millions of otherwise seemingly intelligent people are willing to risk their eternal destiny upon less evidence than they would require for buying a used car - yet the belief of so many, particularly in the area of religion, has no rational or factual foundation. With well-researched arguments and compelling proofs, this book demonstrates that the issue of where one will spend eternity is not a matter of preference (like joining the Elks instead of the Lions). In fact, there is overwhelming evidence that we are eternal beings who will spend eternity somewhere. But where will it be? And how can we know? There is no more important question to be faced - and answered.
