Imagine your child excelling at school and getting accepted everywhere with scholarships - that was the life for my parents.

I was not a genius, I just played the game strategically and now I am here to show you how to do the same.

I graduated high school with 4 years Honors 95% average from one of the top High schools in the country.

I got into every University with a scholarship with this effort, where I did the same thing. Played sports and relaxed, while graduating on time with an Honors Economics degree from a top school school in the country.

Learn how I did it, I broke it down so everybody could.

Whether you are struggling in high school , struggling to get into University, or want to simply do better in school, this book is for you ! I have written down exactly how I completed the educational process with fairly low effort.

If you are a student, this book is for you.
