Scientific Discoveries That Build Testimonies and Strengthen Faith Dan Neville

Why must science and religion always be at odds? Why can't they support each other? This book illustrates how science and religion go hand in hand. Ever wonder about how the Creation actually came about? Or how evolution fits into the equation? Is there proof of the existence of the spirit world? Scientific Discoveries answers these questions as well as many others as it provides insights . . . not only how the world works but also how God was able to give us such a wonderful one. Science doesn't have to contradict religion; in fact, it can support it! This amazing book will change your perspective.
