Discipleship in the Ancient World and Matthew's Gospel, Second Edition

Michael Wilkins

Discipleship in the Ancient World and Matthew's Gospel, Second Edition Michael Wilkins

With a comprehensive sweep of the relevant literature-including classical and Hellenistic sources, the Septuagint, and the New Testament-the author defines disciple and related terms as they were used in the ancient world. Pertinent Semitic words from the Hebrew Bible, Rabbinic literature, and Qumran documents provide additional background for the term. A special emphasis is Matthew's use of mathetes and the role of Simon Peter as a model disciple. The study first appeared in 1988 in the prestigious Novum Testamentum Supplements under the title The Concept of Disciple in Matthew's Gospel: As Reflected in the Use of the Term Mathetes. In this second edition, the author includes a new chapter outlining advances in the field since the book was first published.
