## **Marine Mammal Observer and Passive Acoustic Monitoring Handbook (Conservation Handbooks)**

Victoria Todd, Ian Todd, Jane Gardiner, Erica Morrin

*Marine Mammal Observer and Passive Acoustic Monitoring Handbook* is the ultimate instruction manual for mitigation measures to minimise man-made acoustical and physical disturbances to marine mammals from industrial and defence activities.

Based on more than two decades of offshore experience, and a decade of supplying MMO and PAM services (commercial and scientific), the Handbook is a long-overdue reference guide that seeks to improve standards worldwide for marine operations such as seismic and drilling exploration, wind farm piling, civil engineering, dredging, rock-dumping, and hydrographical surveys. By popular request, this manual will also form an accompaniment to MMO and PAM courses.

The Handbook consolidates all aspects of this discipline into one easily accessible resource, to educate all stakeholders (e.g. MMOs, PAM operators, suppliers, recruitment agencies, clients, contractors, regulators, NGOs, consultants, scientists, academia and media), regardless of experience.

Topics include worldwide legislation, compliance, anthropogenic noise sources and potential effects, training, offshore life, visual and acoustic monitoring (theory and practice), marine mammal distribution, hearing and vocalisations, and report writing.

Advice is provided on implementing sensible and practical mitigation techniques, appropriate technologies, data collection, client and regulator liaison, and project kick-off meetings.

A foreword is provided by Dr Phillip J. Clapham.

### **From reader reviews:**

#### **Jeffrey Brill:**

Exactly why? Because this Marine Mammal Observer and Passive Acoustic Monitoring Handbook (Conservation Handbooks) is an unordinary book that the inside of the book waiting for you to snap that but latter it will distress you with the secret it inside. Reading this book next to it was fantastic author who all write the book in such awesome way makes the content interior easier to understand, entertaining means but still convey the meaning completely. So , it is good for you because of not hesitating having this any longer or you going to regret it. This amazing book will give you a lot of rewards than the other book have got such as help improving your proficiency and your critical thinking method. So , still want to postpone having that book? If I were you I will go to the e-book store hurriedly.

#### **James Hall:**

You may spend your free time to study this book this reserve. This Marine Mammal Observer and Passive Acoustic Monitoring Handbook (Conservation Handbooks) is simple to create you can read it in the park your car, in the beach, train and soon. If you did not include much space to bring the printed book, you can buy often the e-book. It is make you much easier to read it. You can save often the book in your smart phone. Therefore there are a lot of benefits that you will get when you buy this book.

#### **Paul Jackson:**

As we know that book is very important thing to add our knowledge for everything. By a guide we can know everything you want. A book is a pair of written, printed, illustrated or blank sheet. Every year ended up being exactly added. This publication Marine Mammal Observer and Passive Acoustic Monitoring Handbook (Conservation Handbooks) was filled with regards to science. Spend your extra time to add your knowledge about your scientific research competence. Some people has different feel when they reading any book. If you know how big advantage of a book, you can really feel enjoy to read a book. In the modern era like currently, many ways to get book that you simply wanted.

#### **Judy Newberry:**

What is your hobby? Have you heard in which question when you got learners? We believe that that issue was given by teacher with their students. Many kinds of hobby, Everyone has different hobby. And also you know that little person similar to reading or as examining become their hobby. You need to know that reading is very important in addition to book as to be the matter. Book is important thing to include you knowledge, except your own personal teacher or lecturer. You will find good news or update regarding something by book. A substantial number of sorts of books that can you decide to try be your object. One of them is this Marine Mammal Observer and Passive Acoustic Monitoring Handbook (Conservation Handbooks).
