A Treatise on Theism: And on the Modern Skeptical Theories (Classic Reprint) Francis Wharton

Excerpt from A Treatise on Theism: And on the Modern Skeptical Theories

My object, in the preparation of the following work, has been to present the theistic argument, and the replies to the prominent modern skeptical theories, in such a shape as the best to impress the American mind of the present day. I have sought to reach this object in three ways: - First, by selecting from the vast material before me such main topics as seem most likely to affect those whom I address; second, by relying almost exclusively on this country as the basis for induction and illustration; and, third, by reducing the argument to such an analysis as will best subserve the purposes of students.

About the Publisher

Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com

This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
