The chapters on studying the Bible help the beginning or experienced Bible student mine God's Word for its riches through verse analysis, chapter analysis, the overview of a book, the study of a topic, and the study of Bible characters (including charts, diagrams, and other helpful illustrations). The unit on interpreting the Bible explains Bible interpretation based on grammar, history, and theology. The section on applying the Bible moves beyond study to life applications, enabling a person to - be motivated to make personal application - move beyond a "to do" list to an internal desire to obey - consider the risks involved in obeying - use specific application principles
