Children who are familiar with phonics will be a step ahead when learning to read. My First Phonics Dictionary is designed to make phonics easy and fun for beginning learners. The dictionary, recommended for children ages 4 and older, is an ideal tool for introducing sounds and the letters that correspond to them.

The 96-page dictionary begins with simple consonant and vowel sounds like b and e. More difficult consonant and vowel sounds, such as ch and ea, are presented in the final two sections. Each sound is accompanied by several common words that represent the sound, along with a colorful photograph or illustration of the word. A two-page review at the end of each section helps reinforce the sounds just presented. In addition, a sounds chart at the end of the dictionary lists the key pictures and key words used for each sound in the book.

My First Phonics Dictionary has a durable hardcover binding and features extra-thick, glossy pages that stand up to repeated use. The dictionary is equally useful in a classroom or at home.
